Ladies & Gentlemen, Dear Colleagues!

It gives us immense pleasure to invite you to the 2024 HPB Masterclass at Salzkammergut Klinikum Vöcklabruck!

One year has passed since the inaugural meeting of the Austrian E-AHPBA Chapter (AAHPBS) during the 2023 Masterclass at HPB Centre Favoriten Clinic in Vienna. This year we will again provide a platform for all colleagues interested in highly specialized liver, pancreas and bile duct surgery to exchange knowledge regarding new developments, scientific advancements and clinical standards. Involving national and international top experts, the program will focus on minimally-invasive including robotic surgery, new imaging and intraoperative augmented reality methods, as well as hot-topics from transplant oncology. You will experience live operations and presentation of the newly founded AAHPBS-liver resection registry. Furthermore, you can train your skills on robotic and laparoscopic simulators together with international proctors and test brandnew medtech products.

First and foremost, as usual, the main focus of our meetings lies in the amicable exchange and networking with colleagues in our growing HPB community. We are looking forward to welcome you for two exciting days at the Salzkammergut Klinikum!

Prim. Priv.-Doz. Dr. Stefan Stättner,
Head, Department of General,
Visceral and Vascular Surgery

Lt. OA PD Dr. Florian Primavesi,
Clinical Lead Consultant HPB Surgery
